Falling down loving blues

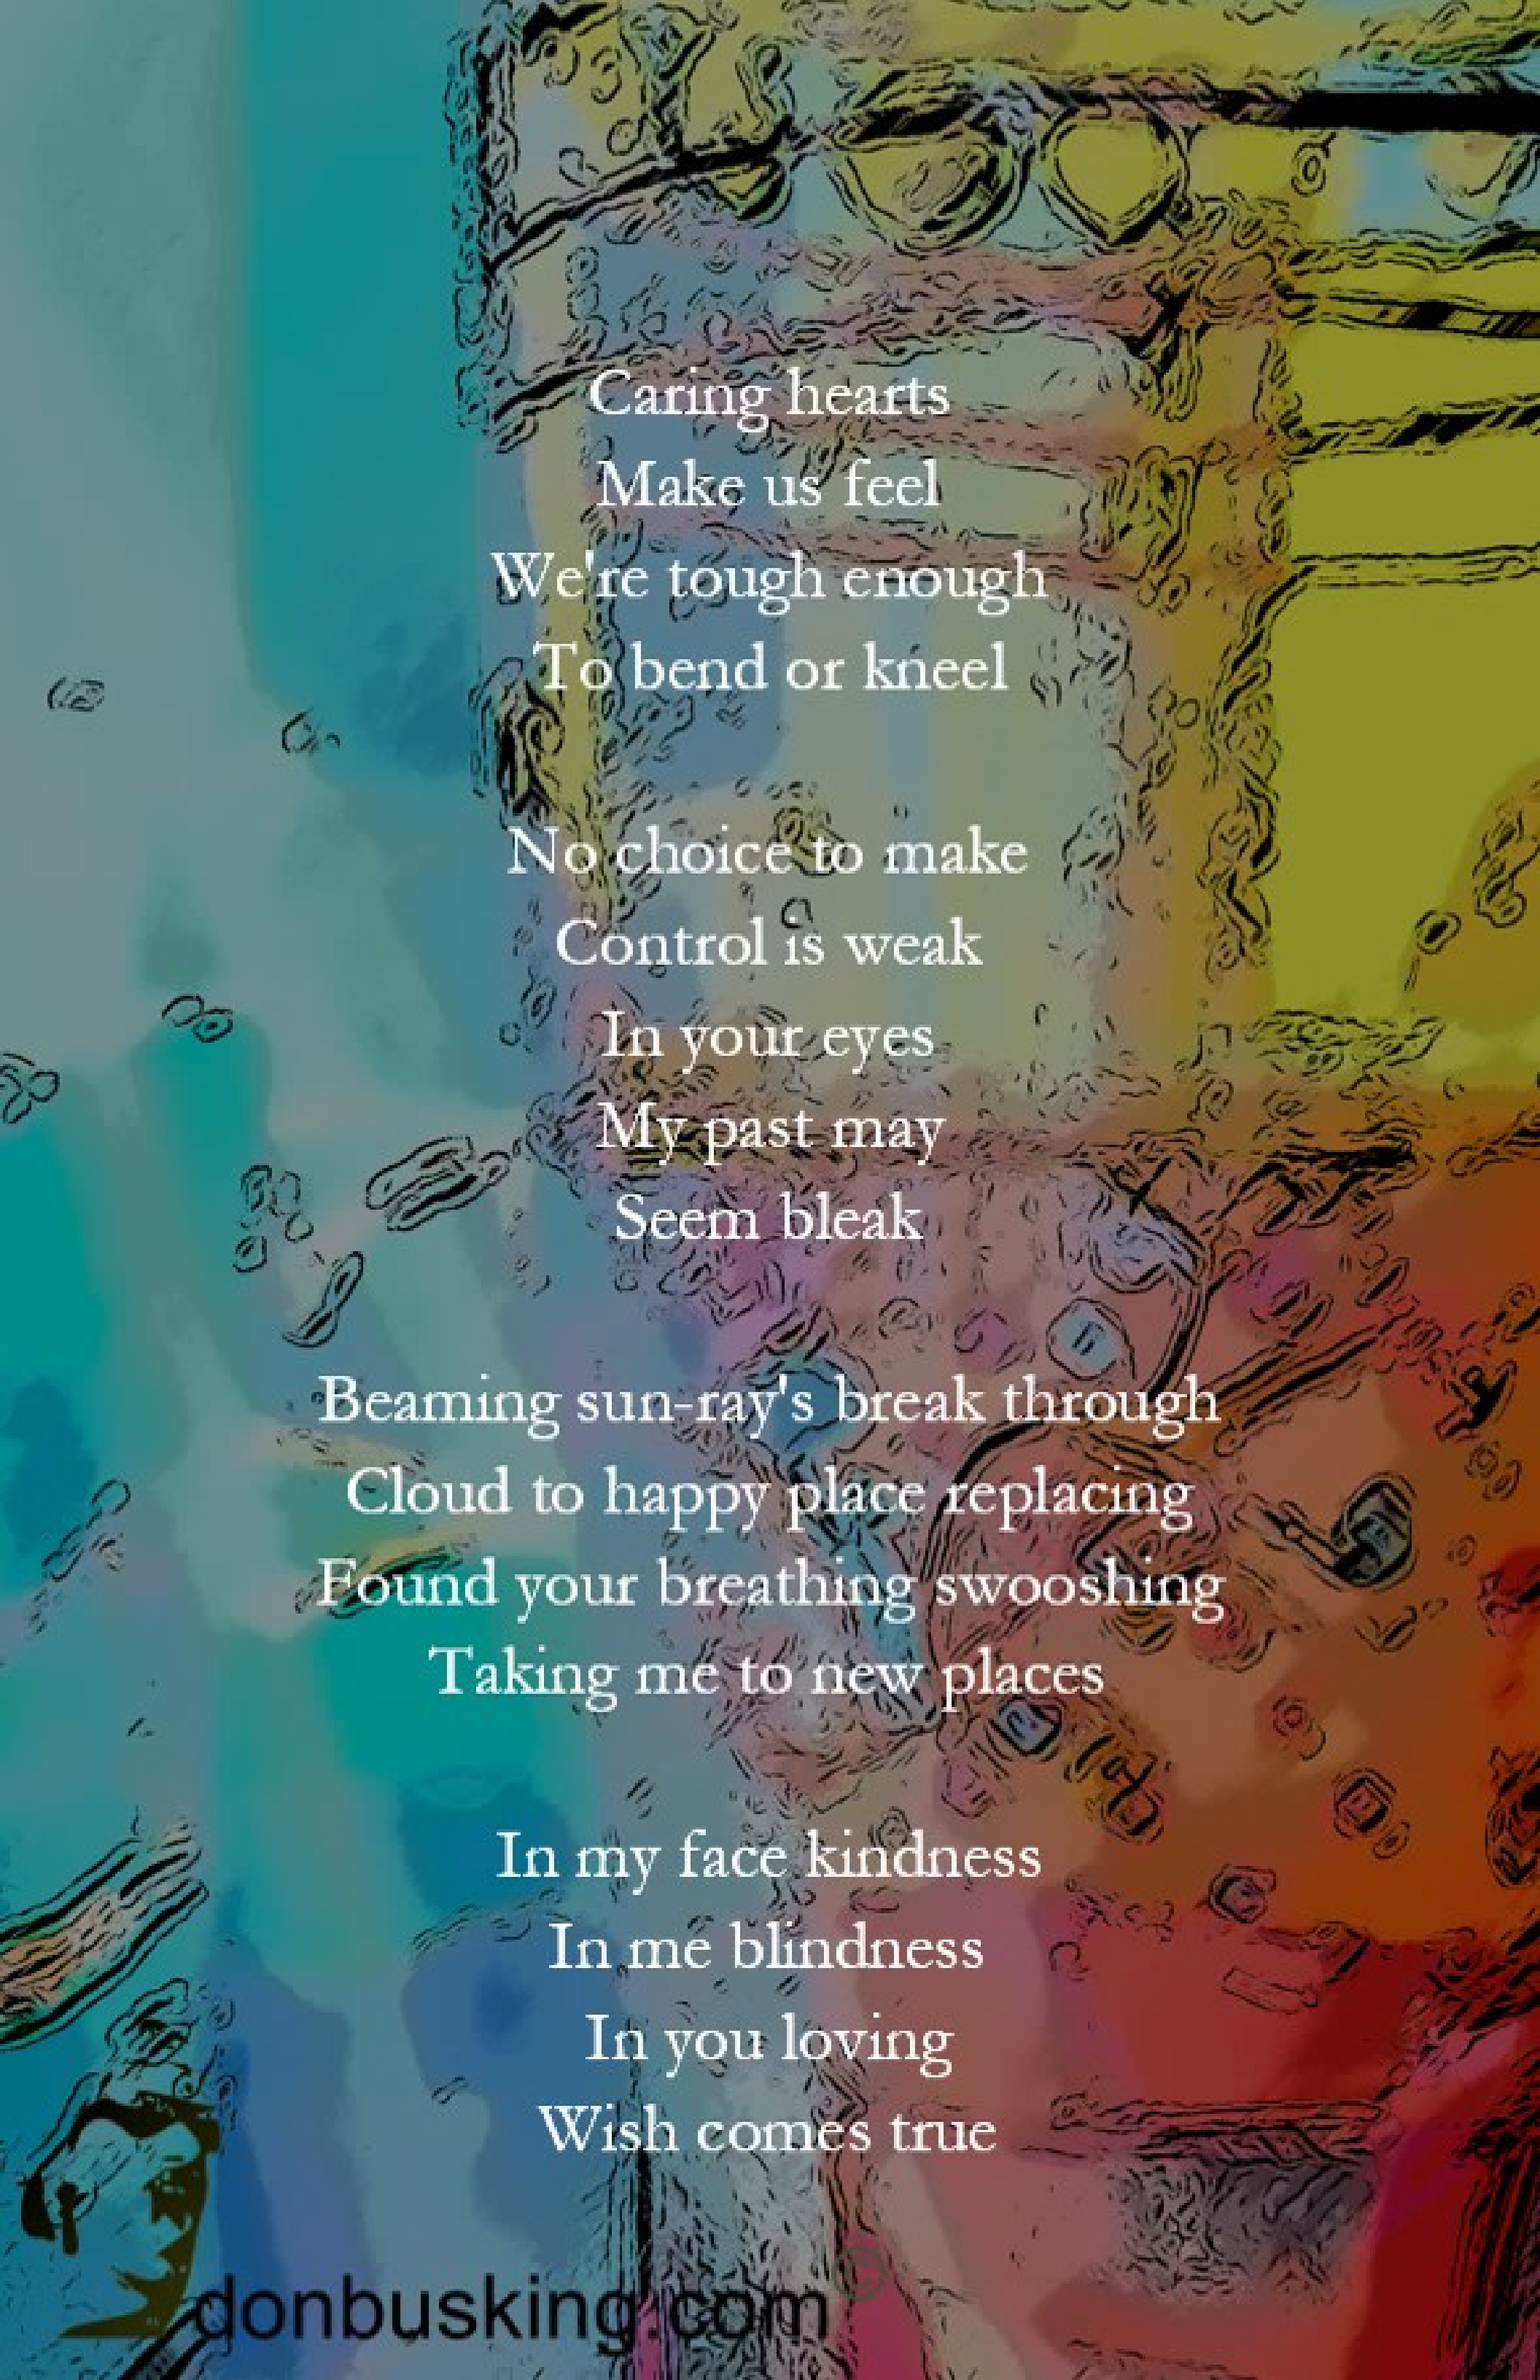

2017-07-04

I wish I could say
It didn't mean a thing
Being thrown down stairs
Crosses way over
Boundaries

Really
No misunderstandings

Clearly
Time for changing

Love is strongest
Left in sorrow
Loosing friends
The pain that follows

Caring hearts
Make us feel
We're tough enough
To bend or kneel

No choice to make
Control is weak

In your eyes
My past may
Seem bleak

Beaming sun-ray's break through
Cloud to happy place replacing
Found your breathing swooshing
Taking me to new places

In my face kindness
In me blindness
In you loving
Wish comes true

Help yourself or others

2017-07-04

Unable to fulfill
Anything of consequence
Ended this awful day
In frustration
Hands trembling

A few distractions
Scampering requests and
Coaching tips
Then back to work
Waiting for my turn

Improvements ready for
On the job training with
Figure it out experts
When available

I hear your offers to help
I see your helping hands ready
I feel detached and confused
Facing changing priorities
Unknown or many

Too late for
More staffing
Call for calm
No worries ending

You look into my eyes
With absolute confidence
Saying the team
Will get it done

You shake whiplash my stress
In a way that I will
Not easily forget
What to do next

As old as you feel

2017-07-03

Denying birth
Scrooge stench failing
Moody moments aging

Living breathing
Single momentary
Days of our existence
On this planet
Coasting

Why deny yourself
Tip toeing
Stomp it up a notch
Try soaring

Your heart
Is at its best
Standing still in love
Lost in time

Silly dreaming
Shiny love reflection
Nothing much or
Everything

Truly trying

2017-07-03

Surreptitious back door

Wheeling and dealing

Suspicious simmering

Angry glares flaring

Not caring less

Stutter daring

Half truths

Worth telling

Perhaps waiting

For that

Right moment

Perfect timing

Wrong track road trip

Tighten buckles

Pull up your
socks

No more fancy

Double talk

Try and see

How you truly feel

Speak it

Keep it real

Bear cub

2017-07-03

Car jacking
Kidnapping
Text me lovingly
One more prayer

Tired exhaustion
Nervously waiting
Patient operation
Awakening

It will all be fine
Read what I wrote
The distraction may
Pass the time

What would a mother not do
For her child cub
No true love bond in nature
Can compare to you

Kindness

Oh bear

Wow
Did you see that
Taking it in

I'm not sure but
I think I saw one
And if I did
I want one

For me, myself and I
Go away
No need to stay

Should, would or could it
Be someone else
Why must this
Happen to me
To us

No religion
Special filter
Skin color
Force field either

Rain or shine
Mail delivery service
When your time is up
Count on it

What if this happens
To be true
Loved one waiting
At the cue

Painstaking wailing heart
Why not me
Why him. Why her.

I was hesitant about posting my brainstorming style of poetry that could be perceived as a rant or brain dump. My intention was to accumulate resource material for songwriting. Should I simply tweak and post only the best of the best?

In the end, my uncle convinced me to continue when he stated that he did not even have one poem to his credit and that I was one step ahead of him as of my first posted poem.

With thanks for the feedback, I will continue to move forward and share another ten poems at a time.

Safe happy waves
