Free spirit

2017-01-27

Movements musicality

Hot bursts of sensuality

Rocking sweet soulful

Heart from Heart

Nancy and Anne both included

In one powerful group hug

Bold with love 2017-02-12

Time allows space

For moments

To stand tested

In truth and love

A couple of lovebirds

2016-12-24

Love is a most wonderful
journey.

Oh, thrilling quake

Knock, knocking my socks

Flying brisk and clear,

Towards solid ground.

With caring friends and family,

I love you most of all

My heart keeps telling.

Sore cheeks

2017-06-04

Cat coughing

Stealth eyes shifting

Release

Crowing laughter

Glitter phobia

Unleashed

Living the big font life

Fuel for thought

2017-04-16

Egghead

Think ahead

Jokes on you

Yokes on me

Turning sadness

Into gladness

Village Id'git

Simply rambling

Bobby's good

Bobby's wise

Monsters fading

Angels waiting

If you're more

The silent type

Introvert like

Charlie Chaplin

Hear me now

Stop overthinking

Our song 2017-03-28

Too twangy
Too mushy
If only we
Could dance to it

Morning broke
The mold with fate
Or skilled dumb luck
I hesitate

Too hefty grandiose
Five or six points
Five billion choices

While searching
Perfect fitting notes
Inside, creation swells,
With hope

Gut wrenching laughs
A smile to search
To find
Our song.

Power for good or evil

2017-04-16

Deplorable
Bad ass
Sorrowful souls

Online karma
With sunny sky
Blues

Humdrum
Evil cloud drama
Trump for truth
Grab for power

Bad day fracture 2017-04-24

Broken ugly frail

Sinkhole tear

One strength, weak.

I cannot speak.

Raise the dead

With family

To live or die

In my sleep.

I hate myself

Tension

When will it be

My turn to feel?

Love or be

Loved together

Yet apart with

Crying hearts

Never hurting

Spouse or friends

With a churning

Crushing strain

Life living

Fractured giving

Work in progress — Loving soul

I'm working here

2017-04-02

EXCAVATION

The entrance is clear
To use a
Getaway compass

Leaving constraints
Of safety measures
In no risk zones

Let it go
Quick weave bro
Playing tough
"We've got this," Joe

With a shove and a push
To leave or get crushed
For working here

Cravings

2017-04-03

Cooking cleaning

Loving healing

Barefoot bear

Sleep it off

Music soft

Rest well

Stretch baker

Can't have your cake

And eat it choices

Time will tell

Unfolding hearts

To wake

10/4 three

by donbusking

In 2017 I began searching for my creativity. Brainstorming poetry felt great but less was often more. Mini poems included in 10/4 three represent exactly that.

Sometimes it is best to stop and delete the overflow. In true songwriting form, even sounds and made-up expressions are on the table.

Dull, silly, worthless nonsense results may seem tedious. Be childlike, have fun and play with it. Perhaps this will be a conduit for self-discovery. Only one way to find out.

Try.

This third edition is once again a set of 10 poems from my first year as a poet. A level one poet/songwriting musician, my contribution rises to 30 compositions.

May we inspire ourselves with a creative artistic mojo.

Good luck and be wave safe happy.
